Verse 1

F#m **D**
Whisper my name so only I can hear
F#m **D**
Call to my heart, chase away my fears
F#m **D**
Stand up in this place, fight for the one you love
F#m **D**
Won't you come surround me so I can rise above

Chorus

F#m **D**
Explode my soul, let these walls come down
F#m **D**
All these prison thoughts, they crumble with the sound
F#m **D**
Of my deliverance from my enemies
F#m **D**
I stand up beside you, let's watch these giants flee

Verse 2

F#m **D**
May the silence be broken, and the winter be done
F#m **D**
Will you come out of your hiding, kiss me sweet warm sun
F#m **D**
Let the wind of your Spirit blow the dust off my feet
F#m **D**
I ran to you broken but now I am complete
